

We design governance around your vision — compliance and risk built in.

Ulyx Advisory is a Bethesda-based, veteran-owned consultancy. We help state and local government agencies, nonprofits, regulated businesses, and growing small and veteran-owned companies build governance, risk, and compliance programs that move with the mission and hold up when audited or tested.

CORE COMPETENCIES

Enterprise Risk Management & Internal Controls — Internal-control programs for state and local agencies and grant recipients, aligned to COSO and the GAO Green Book and built to withstand independent audit.

Board Structure & Governance — Charters, bylaws, decision rights, reporting and vetting procedures, ethics requirements, and member training for public, nonprofit, and private boards.

Audit Remediation & Corrective Action — Root-cause analysis and corrective-action plans for legislative-audit and single-audit findings, with tracking built to close them clean.

Grants Compliance — 2 CFR Part 200 policies, procedures, and subrecipient-monitoring frameworks for federal and pass-through funds.

Technology & AI Governance — AI use and acquisition policies, AI system inventories, and risk assessments built on public frameworks such as the NIST AI Risk Management Framework.

Privacy by Design, Records & Ethics Programs — Privacy, records-management, and institutional-ethics programs designed into systems and processes; Maryland Online Data Privacy Act (MODPA) readiness.

Performance Management — Strategic-plan and performance frameworks with measures tied to how the organization actually operates.

Training & Facilitation — Workshops and cohort training on governance, internal controls, and privacy for staff, boards, and small businesses.

DIFFERENTIATORS

- **Principal-led.** Every engagement is delivered by the founder: a retired U.S. Air Force officer with a legal, cybersecurity, technology-governance, and federal compliance background.
- **Design first, compliance built in.** Controls and compliance are designed into the structure from the start, so they speed work up instead of slowing it down.
- **Privacy credentialed.** IAPP-certified in U.S. privacy law (CIPP/US) and privacy program management (CIPM).
- **Certified partner.** Maryland VSBE, Maryland Certified Small Business, and Montgomery County MFD Disabled-Owned status help agencies use set-asides and help primes meet state and county participation goals.

TYPICAL ENGAGEMENTS

- Internal-control and risk assessment with a prioritized corrective-action plan
- Board charter, bylaws, and member-training package
- 2 CFR 200 grants-compliance review with written procedures
- MODPA privacy readiness: data inventory, rights-request workflow, and remediation roadmap
- Subcontract support to prime contractors on governance, controls, privacy, and records scope
